

Hello San Andreas Service Providers,

As you may already be aware, the CA legislature approved funding for the Department of Developmental Services (DDS) to undertake a study of the rates paid for services in the I/DD service system in CA. DDS contracted with Burns and Associates to perform this study. Burns and Associates have been gathering pertinent information for some months. Now it is time to hear what the service providers themselves have to say about the rates.

Burns and Associates request that you provide your input by completing a survey. Some of you will have received information about the survey directly from Burns and Associates. See the text of their email to providers below in green font.

However, you are all strongly encouraged to complete the survey even if you did not receive an email about this directly from Burns and Associates.

More information about the rate study and the survey is available on the DDS website: <https://www.dds.ca.gov/RateStudy/Index.cfm> You will find there a direct link to the survey. If you have questions after reading the DDS web page, you can contact Tamara Kidwell at DDS at Tamara.Kidwell@dds.ca.gov or (916) 651-6311.

Please make your voices heard on this VERY important issue!

Thank you,

Jeff

Jeffery Darling

Hello,

As required by Welfare and Institutions Code § 4519.8 (http://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=WIC§ionNum=4519.8), the California Department Developmental Services (DDS) is in the process of studying the reimbursement rates paid for community-based services for individuals with developmental disabilities.

Our organization, Burns & Associates, Inc. (B&A), is assisting DDS with this study. This assistance includes the administration of a vendor survey to collect data regarding providers' service delivery designs and costs. B&A consulted with DDS and the Developmental Services Task Force's Rates Workgroup to develop the Excel-based survey and accompanying instructions, which are attached.

B&A will be recording a series of webinars to explain the rate study and to walk through the survey page-by-page. The recordings will be posted to <http://www.burnshealthpolicy.com/DDSVendorRates/> by the end of the day on May 29. Other project-related materials, including the survey and instructions attached to this email, can also be found at this website.

Please note the following:

- Data collected through the survey will be a key consideration as DDS assesses the adequacy of current payment rates and studies possible changes to the rates. Thus, although the survey is voluntary, all vendors are encouraged to participate.
- The survey includes worksheets ('tabs') for every service code included within the survey. You should only complete forms for the services that your organization provides. The table of contents ('TOC') worksheet in the survey file lists the specific forms to complete for each service code. Similarly, the Service Listing page beginning on page 3 of the instructions directs you to the appropriate pages for directions for each survey worksheet.
- Information collected through the survey will be utilized only for the purpose of this rate study and vendors' individual responses will not be released to DDS.
- Partially completed surveys will be accepted. You may skip any questions that request information that your agency cannot provide, and those portions of the survey that are completed will still be part of the survey analysis.
- If there are any factors that you believe should be considered but were not included in the survey, note those issues (and any other comments) in the transmittal email when submitting the survey. You may also submit any other documentation that you would like considered as part of this study.

We recognize that the survey is lengthy and detailed. In addition to the recorded webinars noted above, you are encouraged to contact us with any questions at DDSProviderSurvey@burnshealthpolicy.com or (602) 241-8515.

Completed surveys are due by Friday, July 6 and should be submitted to DDSProviderSurvey@burnshealthpolicy.com.

If you have any questions regarding the rate study, you may contact your local Regional Center or DDS at vendorsurvey@dds.ca.gov or (916) 654-2300.

Thank you.
