

[Child Find is defined in 34 Code of Federal Regulations \(CFR\), Section 303.302.](#)

Child Find is intended to locate and identify children who are experiencing, or are at risk of experiencing, conduct outreach to identify such children. In addition, the Child Find system is required to target or experiencing homelessness, infants and toddler in foster care.

Step 1: Review the percent of children served data for your regional center (Indicator 5 – Birth to age 3). Based on a review of the data for your regional center, which age group will your regional center focus on?

In the table below

Step 2: Identify primary referral sources for all counties in the regional center catchment area and if they have written policies and procedures that outline your child find efforts to identify and locate children who are experiencing homelessness, infants and toddler in foster care.

Step 3: Identify the agency type, if the agency has outreach to underserved populations, the type of outreach, and whether the agency has written policies and procedures that outline your child find efforts to identify and locate children who are experiencing homelessness, infants and toddlers, and other underserved infants and toddlers and their families in the catchment area? (If yes, please submit the policies and procedures.)

Please select your RC

San Andreas Regional Center
