RE: Enhanced Behavioral Day Program

Geographic Location: Santa Cruz County

Start-Up Funds: \$150,000.00

San Andreas Regional Center

San Andreas Regional Center (SARC) is a community-based, private nonprofit corporation that serves individuals and their families residing within Monterey, San Benito, Santa Clara, and Santa Cruz Counties. It is one of 21 Regional Centers in California. The State of California funds SARC to serve people with developmental disabilities as required by the Lanterman Developmental Disabilities Act. The Lanterman Developmental Disabilities Services Act, known as the "**Lanterman Act**," is an essential piece of legislation passed and became law in 1969. This law declares that people with developmental disabilities and their families have the right to receive the services and support they need to live like people without disabilities.

Service Description

SARC has determined a need for an Enhanced Behavioral Day Program (EBDP) service provider to serve Santa Cruz County. This service provider has vast experience in providing day services designed to provide day support to individuals in Santa Cruz County who are (1) severely impacted by autism and intellectual/developmental disabilities and (2) unable to access traditional Behavior Management Programs due to the need for increased levels of support. Utilizing principles of applied behavior analysis (ABA), an EBDP service provider serves individuals who require a highly specialized program to address complex communication and behavioral needs. An EBDP employs an evidence-based methodology and uses person-centered thinking practices and a trauma-informed approach to produce measurable and lasting improvements in the lives of the individuals served.

Individuals served may include individuals who may have:

1. Documented behavioral challenges, which may include but are not limited to:
 - Intensive challenging behaviors, including severe aggression, self-injurious behavior, and propensity for significant property damage.
 - Elopement, eating disorders, or pica resulting in the need for an enhanced level of support and supervision.
2. Autism and/or intellectual/developmental disabilities resulting in significant delays in adaptive skills, including language and communication, social and recreation skills, and daily living skills.
3. Pervasive ritualistic and repetitive behaviors that profoundly impact the individual's adaptive functioning and ability to access a traditional behavior management program.
4. Co-occurring diagnoses that make service delivery challenging.
5. Been assessed, and the Individual Interdisciplinary Team (IDT) agrees that enhanced behavioral day services are needed.

The EBDP is an organization contracted to and vendored by a Regional Center. The EBDP will provide specialized assessment, considering trauma-informed care and person-centered planning. Ongoing services would be provided by a highly qualified administrator/Program Director, a BCBA, and direct support professionals with extensive initial and ongoing training to meet the unique needs of the individuals served.

SARC will work closely with the EBDP service provider and the Department of Developmental Services to request a 637 waiver to the current Behavioral Day Program rates with justification for an enhanced rate.

Board members and employees of regional centers are prohibited from submitting proposals. Refer to Title 17, Section 54314, for a complete list of ineligible applicants.

Please refer to the Request for Proposal and Submission Guidelines below for proposal requirements, timelines for submission, the basis for the award, the anticipated selection schedule, etc.
